

# “We save time by using Photobook”

**Simon Hague, Head of Housing, Optivo**

## What was the main motivator for you purchasing Photobook?

After using the paper version of Photobook and seeing the positive results it brought to our organisation, we chose the app and web portal with the key objective of streamlining our processes further, making estate inspections simpler and quicker.

## How are you using the app and portal in your organisation?

We use Photobook for our estate inspections, especially when it comes to monitoring our cleaning and grounds maintenance contracts.

## What do you think is the most useful feature?

The most useful feature of Photobook is definitely the fact it's easy-to-use and allows us to upload photos and send them straight to the contractor. In addition, the reporting function enables us to track and monitor performance.

## What have you achieved with Photobook so far?

We are saving time by using Photobook. Our Housing Officers complete forms on the app and no longer have to come back to the office to fill them out.

## What would you recommend about this product / service?

It can be used for a variety of different inspection processes, providing great value for money.

*“The app is easy-to-use, reasonably priced and simple to implement.”*

The support from HouseMark and the software contractor has also been excellent.
